CS 229: Data Structures

1. Shortest path from Helena to Miami:
[Helena - Duluth, Duluth - Chicago, Chicago - St.Louis, St.Louis - Nashville, Nashville - Atlanta, Atlanta - Miami]
 Total Weight: 2652.0

Another Route:
[Helena - Omaha, Omaha - Chicago, Chicago - St.Louis, St.Louis - Nashville, Nashville - Atlanta, Atlanta - Miami]
Total Weight: 3064

2. I am proud of how fast I was able to finish this project. I am turning it in much later than I finished it cause of finals but my ability to complete this project made my finals experience much less stressful.

3. The most interesting things I learned in this course were about the CS industry and the interview process. It gave me a good understanding of what interviews and the industry are like, and how I can prepare for them.

4. Only external help was from the professor.
